

## Steel effect duct system

Step reducer MF  $\varnothing$  125-100 mm for pipes without socket

**CRC96AC**

- Description:** Step reducer for pipes without socket
- Material:** ABS plastic
- Colour:** Steel
- Features:** The reduction cone allows you to switch from one pipe diameter to another without having to cut anything. The cone is part of the ducted ventilation system which allows rapid evacuation of vapors (max 80°C) and unpleasant odors from environments such as the kitchen or bathrooms and a healthy exchange of air.
