Description: Flat T-joint with round eccentric spigot

Material: ABS plastic

Features: The eccentric T-fitting allows you to switch from a round pipe to a rectangular one (and vice versa) and can be connected to the pipes of the duct using joints and accessories. It is part of the ducted ventilation system which they allow rapid evacuation of vapors (max 80°C) and unpleasant odors from environments such as the kitchen or bathrooms and a healthy exchange of air.
